

Round 2 Sediment toxicity test result summary:

Endpoint	Toxicity Threshold				Total
	0	1	2	3	
HY28 Growth	88	43	52	50	233
HY28 Survival	203	10	2	18	233
CH10 Growth	192	11	7	23	233
CH10 Survival	187	13	8	25	233

Toxicity thresholds:

Level 0: Not statistically significant difference from control or $\geq 90\%$

Level 1: Statistically significant difference from control and $< 90\%$ of control and $\geq 80\%$ of control

Level 2: Statistically significant difference from control and $< 80\%$ of control and $\geq 70\%$ of control

Level 3: Statistically significant difference from control and $< 70\%$ of control
